Unique Multitouch technology

Vandal and water proof

4K

Retina display

It's a powerful business tool!

Savings

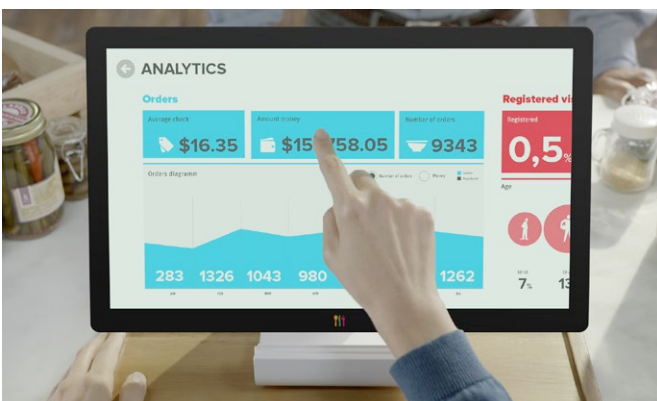

You don't need waiters with IRT tables, all you need is a few plate runners!

[Details](#)

Ordering system

No theft. All orders come straight from tables to the cloud.

Analytics

Exclusive reviews about the dishes, valuable statistics on orders as well as gratuities.

[Details](#)

Incredible Up-Selling

Don't limit yourself to food – add other products for sale in our system!

[Details](#)

“Is it expensive for my cafe or restaurant?”

With IRT Tables **you don't need a waiters** because **all orders come from tables to cloud**. The average salary for a waiter in the US per year is USD \$23'000. For a normal cafe or restaurant of 60 seats, you need 4 to 5 waiters.

But with IRT, **you need just 2 plate runners**, which are less expensive than waiters.

Operational expense based on one year.

Calculation for 40 seats per year.

Classical restaurant or cafe	IRT Smart Interactive restaurant or cafe
SUBSCRIPTION	
\$0	\$29'054 10 tables × 4 seats × \$1.99 subscription × 365 days 
EMLOYERS COSTS	
\$115'000 5 waiters for \$23'000	\$30'000 2 plate runners for \$15'000 
TOTAL	
\$115'000	\$59'054

By the way,
**unlike every
waiter,**
Interactive
Restaurant
Technology
is the system
that you
can trust!

Comparison with an iPad-based cafe as an alternative

4 new iPads
\$629 each

- You still need software for ordering.
- You can't reduce staff – somebody needs to bring iPads to customer and charge it daily.
- Follow them and protect from theft.
- Also think about how many iPads you need replace/repair during the year.

much more than
\$2'516

IRT Multi-touch Table
with Ultra-HD screen

- Comes with all software.
- Large screen that fits a standard sized 4-top table that your customer consistently interacts with in front of their eyes.

~~\$14'980~~
\$4'999

with subscription contract

And finally,
most people
have played
with iPads,
but who has
experienced
something
like this?

Timeline about Interactive Restaurant Technology

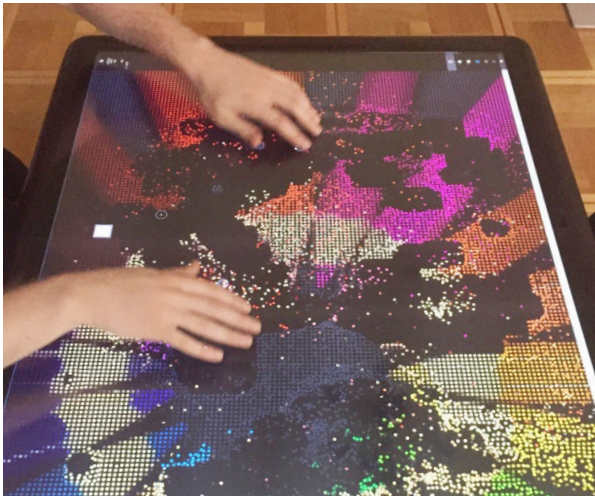

2009

IRT began its work as a project within the company Kodisoft within a team of 8 people.

2011

R&D in own multitouch development, creating own POS, CRM, ERP for restaurants and cafes.

2013

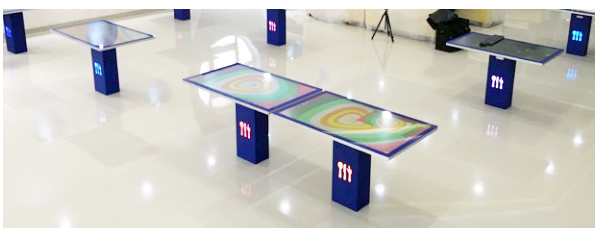

Opening second interactive restaurant in Dubai – meet Ebody.

2015

Launching industrial production line for own multitouch technology, called KoSense in Kyiv, Ukraine. That is a main IP of company and thank's to KoSense – we are only one table that is really work in restaurant and public environment.

The IRT Tables based on the KoSense technology durable, fast, convenient and cost effective solution for HoReCa.

2010

The first was an Interactive restaurant OSHI innovation, and it keep running without single trouble.

2012

Launching the world's-first Ultra-HD Interactive Table.

2014

Opening third interactive point, now in Abu-Dhabi. Brand new coffee shop named iCafe.

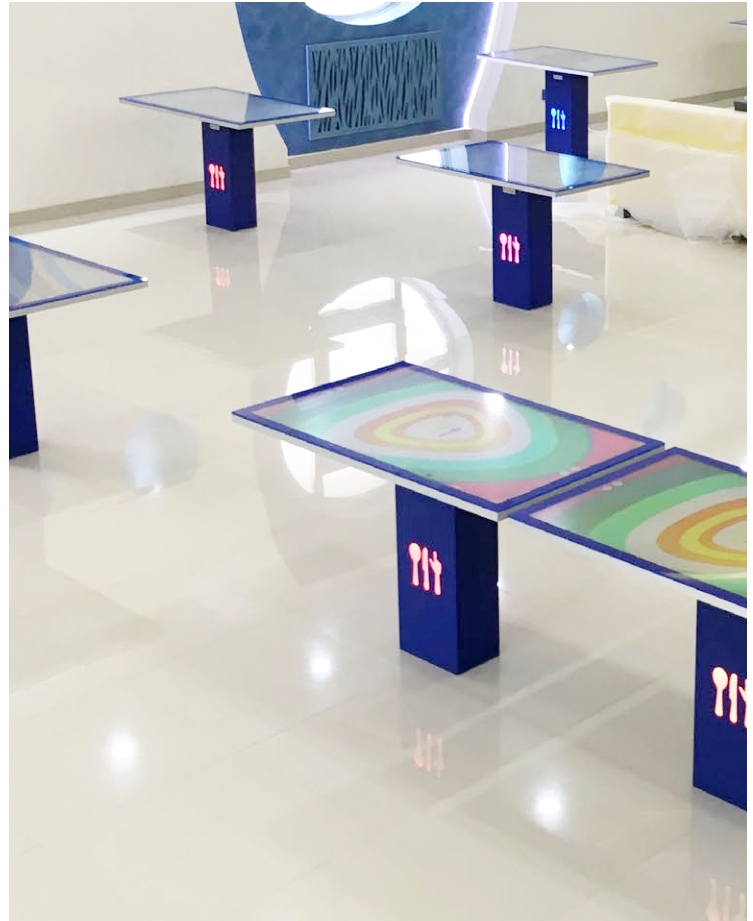

2016

Opening fourth interactive restaurant NEO interactive restaurant in Vladikavkaz.

Currently we are **team of 25 people**
based in Kyiv, Ukraine.

We have our **own production facility**
and **in house R&D** in both software,
hardware and nanotech.
